Description: Silicone Remover and  
Surface Degreaser –  
Highly Concentrated

EAN:

## Meet your ultimate pre-paint cleaner: highly concentrated, anti-static and compatible with all modern paint systems.

Prepare every substrate with confidence using the Finixa Silicone Remover and Surface Degreaser – Highly Concentrated. This advanced surface cleaner is designed for professional automotive refinishing and excels at removing silicone, wax, grease, fingerprints, sanding residue, and other contaminants that compromise paint adhesion.

As a highly concentrated wax and grease remover, DGRHC offers stronger cleaning power than standard degreasers, ensuring maximum effectiveness with minimal product consumption. The formula is fully compatible with both water-borne and solvent-borne paint systems, making it a versatile and essential step in any preparation process.

During the sanding and preparation of plastic components such as bumpers and wheel arches, static charges often build up. These charges attract dust and airborne particles that can cause imperfections in the final coating. DGRHC features integrated anti-static properties that instantly neutralize static electricity, turning the surface anti-static and preventing new contamination. This eliminates the need for costly anti-static guns, offering a clean surface with less equipment and fewer steps.

### Key features

- Very powerful surface degreaser - removing all dirt, silicone, dust, swarf and grease from various surfaces more efficient and powerful than standard degreasers due its highly concentrated formula.
- Dual paint compatibility – suitable for both water-borne and solvent-borne systems.
- Anti-static performance, neutralising static charge on surfaces.
- Safe for plastics and rubber, perfect for bumpers, trims, and synthetic vehicle parts.
- Low-VOC and slow evaporation time, allowing you to degrease bigger surfaces before evaporation.
- Leaves no streaks or residues, delivering a perfectly clean result without any traces.
- Water-based and low-VOC - safe to use with minimal protective gear.
- Effective against tar and glue, when used with scuff rolls (SBR 10-20-30).

## Packaging Information

- DGRHC 01 per bottle of 1L, 6 bottles per box. DGRHC 25 per can of 25L.

---

## Product details

- Brand: Finixa
  - Number: DGRHC 01-25
  - Colour: transparent
  - Shelf life: 24 months
  - Storage temperature: 5-30°C
  - Storage conditions: Dark, keep away from direct sunlight
  - Antistatic properties: yes
  - Application surfaces: steel, E-coating, galvanized steel, aluminum, fiberglass, hard plastic, soft plastic, chrome, rubber, new paint, good paint, neglected paint, matt paint, gelcoat, putty, primer/filler, OEM paint, refinish paint, wood, zinc, ceramic, copper, lead, stainless steel, high-pressure laminate, stone, carbon fiber, thermoplastics
  - Base type: Water-Based
  - Free of silicones: yes
  - Removable contaminants: dirt, dust, swarf, grease, oil, silicone, salt, soap rests, bird droppings

## Application

Degreasing and cleaning with pressurized sprayer LSP 20.

1. Spray the product on the surface to degrease.
2. Remove the dirt with a first degreasing cloth (SOF 19-20-21).
3. Dry the surface with a second degreasing cloth (SOF 19-20-21).

Degreasing and cleaning in combination with SOF 25 bucket.

1. Open the SOF 25 bucket. The bucket contains 1 roll of cleaning cloths.
2. Add 700 ml of DGRHC to the bucket.
3. Leave for 30 minutes before using the cloths.
4. Ready for use.
5. Remove the dirt with the SOF 25 cloth.
6. Dry the surface using a dry degreasing cloth (SOF 19-20-21).

Important disclaimer:

This product must be fully removed after application (e.g. using a degreasing cloth or another suitable wiping method). We recommend not immersing parts or materials in the product for extended periods. Please read all instructions carefully and consult the Safety Data Sheet (SDS) before use. Do not dilute.

The product is warranted only for its intended application purpose and when used in accordance with our user instructions. Any other use is at the user's own risk.

## Frequently Asked Questions

- **Why should I use DGRHC over DGR?**

Both products deliver excellent result, but certain tasks demand extra strength. That's why we created a highly concentrated version, designed to handle the most demanding and critical degreasing jobs with ease.

- **Can this surface cleaner be used with both water-based and solvent-based paints?**

Yes, DGRHC is fully compatible with both systems.

- **Is the product safe for use on plastic parts such as bumpers?**

Yes, it is safe for plastics and rubbers. Perfect for bumpers, trims, and synthetic vehicle parts. And as a bonus, DGRHC also neutralises any static build-up ensuring optimal clean substrates before painting.

- **Does the silicone remover leave residue after wiping?**

No, it leaves no residue and streaks behind, ensuring optimal adhesion.
