Article number: 00995x
Description: Vacuum Hose Ø 29 mm
Anti Static
EAN:

The Hamach Vacuum Hose Ø 29 mm Anti Static (00995x) is a professional-grade dust extraction hose designed to connect sanding tools and central vacuum systems for efficient dust removal. This hose has a 29 mm internal diameter, making it suitable for a wide range of sanding machines and vacuum fittings. It's engineered with anti-static properties, meaning it conducts static charges below 106 Ω according to the DIN EN ISO 8031 standard, helping to prevent static build-up during use.

This product is part of Hamach's extensive range of vacuum accessories, often used in workshop and industrial environments where consistent dust extraction and tool connection flexibility are required.

Key features

- Designed with materials that keep conductivity < 106 Ω , significantly reducing static electricity build-up when sanding or extracting dust.
- With a 29 mm diameter, the hose fits a wide range of sanding tools and standard vacuum connections — ideal for central vacuum systems and portable units alike.
- Constructed for workshop and industrial environments, offering durability and reliability under frequent use.

- Available in different lengths (e.g., 4 m and 8 m variants in the same anti-static family), giving flexibility depending on workspace layout and reach needed.
 - Conforms to DIN EN ISO 8031 conductivity requirements, ensuring quality and consistency in performance.
